

Mohamed Khalil Oueslati

Data Science Engineering student specializing in Machine Learning and applied Generative and Agentic AI systems, looking for a 6-month end-of-study internship from January to June 2027

Tunis, Tunisia | +216 27 417 898 | khalilouesleti951@gmail.com | [LinkedIn](#) | github.com/khalil951

EDUCATION

Esprit Private School of Engineering and Technology – Tunis, Tunisia 2021 – Present

Information Technology Engineering Degree (Data Science Major)

Relevant Coursework: Machine Learning, Deep Learning, Statistics, Time Series, Linear Algebra, Probability, Database Systems, OOP

Global UGRAD Program – University of North Carolina Greensboro, USA 2025

GPA: 3.92/4.00 – Fully funded exchange sponsored by the U.S. Department of State; selected among top international applicants.

Certifications: Datacamp Data Science Associate, Neo4j Fundamentals, Neural Networks and Deep Learning

PROFESSIONAL EXPERIENCE

RFC – AI Engineer Intern Jul 2026 – Present · Remote

- Developed AI agents using Microsoft Copilot Studio and LangGraph to automate Project Management Office (PMO) processes.
- Evaluated the generated LLM recommendations with techniques such as: LLM-as-Judge and Semantic similarity
- Applied agentic AI design patterns (multi-step orchestration, tool-calling) to translate manual PMO workflows into agent-driven pipelines.

Talan Tunisie – Research Software Engineer Intern Jul 2024 – Sep 2024

- Secured 1st place among 10 teams in a national innovation competition.
- Conducted biotechnology research, reviewing 10+ scientific papers on DNA-based storage.
- Co-developed DaaS (DNA as a Service), encoding digital data into synthetic DNA, targeting 95% energy reduction.
- Engineered a full-stack Next.js demo platform integrated with a custom Computer Vision model, streamlining file classification

FelCloud – Data Analyst Intern Jun 2023 – Jul 2023

- Analyzed pricing data from 5+ cloud providers using Python (Pandas, NumPy, Seaborn, Matplotlib).
- Identified 3 cost-optimization strategies improving projected sales by 20%.

PROJECTS

EstateMind – AI-Powered Real Estate Intelligence Platform Team Project – 2026

- Built AI-driven property valuation and price-forecasting models with Explainable AI techniques, turning fragmented real estate data into transparent, trustworthy pricing insights.
- Developed an automated web-scraping agent to aggregate and normalize property listings from multiple agencies, portals, and social media platforms into a unified dataset.
- Contributed to a Retrieval-Augmented Generation (RAG)-based AI Legal Assistant and Real Estate Advisor
- Collaborated on a full-stack platform combining NLP/Computer Vision listing analysis, geospatial mapping, and climate/sustainability risk analytics for buyers, investors, and agencies.

AgriSense AI – Agentic Irrigation Management System Intelligent Planet Hackathon – Saudi Arabia

- Designed an agentic AI system using LangGraph to orchestrate autonomous sub-agents (weather forecasting, soil moisture monitoring, irrigation scheduling) for desert agricultural water management.
- Built an LLM-powered decision agent with Retrieval-Augmented Generation (RAG) over agronomic knowledge sources to generate context-aware irrigation recommendations.
- Developed and presented a working prototype at an international AI-for-sustainability hackathon, demonstrating improved water-use efficiency.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript (Next.js)

Machine Learning & Computer Vision: Scikit-learn, TensorFlow, PyTorch, Keras, CNNs, Feature Engineering, Deployment

Generative AI & Agentic Systems: LLMs, RAG, LangGraph, Agentic AI, Microsoft Copilot Studio, Prompt Engineering, Fine-tuning, Hugging Face Transformers, Model Evaluation

Data Tools: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Looker Studio, Hadoop

Databases: MongoDB, MySQL

Tools & APIs: Git, Docker, Linux, Cloud Platforms(AWS), CI/CD workflows, Google Vertex AI, FastAPI, REST APIs

Soft Skills: Good communication & collaboration, attention to detail, problem-solving, curiosity, ability to work in a diverse team

Languages: Arabic (Native), English (Fluent), French (Intermediate), German (Basic)

LEADERSHIP EXPERIENCE

oGT Team Leader – AIESEC in Tunisia (Bardo) 2023 – 2024

- Led exchange participant operations and outreach initiatives.
- Developed a CRM system and a Supply & Demand dashboard to automate workflows.
- Coordinated cross-functional communication with international entities.
